

Hand Measurement

Hand size	Hand circumference (mm)	Hand length (mm)
6	152	160
7	178	171
8	203	182
9	229	192
10	254	204
11	279	215
12	305	226

Hand measurements are based on the **EN 420** standard for the general requirements of protective gloves.

The circumference of the hand is measured with a tape, 20 mm from the crotch between thumb and index finger.

The length of hand is the length measured by freely suspending the glove with the middle finger on a vertical graduated rule having a rounded tip so as to fit the shape of the finger tip of the glove. Remove wrinkles and folds without stretching the glove.
