professional**

Don't be an average joe.
Go pro!

Two great reasons to rent

Renting means less stress for both you and the environment.

It also means that you don't have to invest a ton of money in workwear stock. Instead, you'll always have the optimal amount of clean, safe and smart looking workwear ready for use. When your needs change, as is often the case with seasonal workforce changes, our service can easily be adjusted to accommodate.

All in all, our service ensures better workwear management at a transparent and affordable cost.

**We take care for
over a million
people's workwear
every single day!**

Safety doesn't happen by accident

It's our business to keep you safe. We care for your safety by monitoring the legislation, standards and new operating models in a variety of fields. Through extensive research and experience, we have developed our workwear to meet the toughest of requirements. What's more, we're continuously striving to discover even better solutions.

We've got protection covered

Workwear is an important part of protecting both employees and the work being done. In many cases, it's vital to have hygienic, protective workwear. But don't worry, we've got you covered. Our industrial textile care ensures the highest level of hygiene, meaning your employees can always get their jobs done safely and effectively while production continues to run smoothly.

Don't be an average joe. Go pro

Our job is to make your everyday working conditions better. This means that we want you to have workwear that makes you feel good, giving everyone the comfort and confidence they deserve.

Our collections are designed to not only look and feel great, but to stay that way for longer. The appearance and comfort of every worker is a reflection of your company and brand – so let us make sure they shine!

Why buy when you can rent?

When you use our service, we not only acquire the workwear, but we also wash, maintain, repair, renew, and even store it on your behalf. We deliver clean, well-kept clothing weekly, directly to every employee's locker or another spot of your choosing. That way you can stress less and focus on your actual work. Everyone wins.
